No. 1980

BOYSEN DAM—ACQUISITION OF LANDS WHICH ARE SUBJECT TO CERTAIN RIGHTS OF THE SHOSHONE AND ARAPAHO INDIAN TRIBES OF THE WIND RIVER RESERVATION, WYO.

JUNE 27, 1952.—Ordered to be printed

Mr. O'MAHONEY, from the Committee on Interior and Insular Affairs,
submitted the following

REPORT

[To accompany S. 3333]

The Committee on Interior and Insular Affairs, to whom was referred the bill (S. 3333) authorizing the Secretary of the Interior for a reasonable consideration, not exceeding \$458,000, to be paid from funds appropriated for the Boysen unit of the Missouri River Basin project, to convey and relinquish to the United States the property and rights of the Shoshone and of the Arapaho Indian Tribes needed by the United States for its construction, operation and maintenance, having considered the same, report thereon with the recommendation that it do pass with the following amendments:

On page 1, line 3, after the "a" insert the word "reasonable".

On page 1, line 4, strike out the word "of" and insert in lieu thereof the words "not to exceed" and insert a comma after the figures "\$458,000".

On page 2, line 5, change the word "transmissions" to "transmission".

EXPLANATION OF THE BILL

The purposes of this proposed legislation are to acquire by the United States approximately 25,880 acres of land which are subject to certain rights of the Shoshone and Arapaho Indian Tribes of the Wind River Indian Reservation, Wyo., and confirm the action of the Secretary of the Interior in granting rights-of-way over lands belonging to these Indians for the establishment or the relocation of roads, highways, railroads, telegraph, telephone, power transmission, and pipelines in connection with the construction of the Boysen unit of the Missouri River Basin project.

This bill provides that the conveyances and relinquishment of Indian land titles shall be in accord with the memorandum of under-

standing between the Commissioner of Reclamation and the Commissioner of Indian Affairs, acting for and on behalf of the general council of the Shoshone and Arapaho Indians (general council's resolution of July 12, 1950, a copy of which is attached hereto and made a part of this report), which was approved by the Secretary of the Interior on December 29, 1951, and amended and approved by him on May 1, 1952.

On July 12, 1950, the general council of the Shoshone and Arapaho Indian Tribes approved the relinquishment of their rights to the lands situated in the taking area of the Boysen Dam and Reservoir unit for the recommended consideration of \$458,000 and authorized the Commissioner of Indian Affairs to negotiate and execute a memorandum of understanding which would confirm their approval and incorporate certain terms for such acquisition and relinquishment.

The terms of said memorandum of understanding provide that full and complete title (no mineral reservation) shall be given the Government in the lands on which the Boysen Dam is to be located, consisting of approximately 366.75 acres, and that surface rights are to be conveyed in the remainder of the taking area, consisting of approximately 25,500 acres.

The conveyances and relinquishments will need now be only of the tribal interest, since the Shoshone and Arapaho Indian Tribes have recently acquired the interests of all individual Indian owners and allottees, as evidenced by letter dated June 27, 1952, from Mr. Dillon S. Myer, Commissioner of Indian Affairs, which letter is attached hereto and made a part of this report. Title to the allotments was conveyed by deeds which in only one or two instances reserved the mineral rights to the Indian grantors.

In the area where only the surface was acquired by the Government the Indians will retain exclusive access to a portion of the shoreline of the Boysen Reservoir so long as the abutting lands of the Wind River Reservation remain subject to the occupancy rights of these Indians. The Indians, with the general public, are also to be allowed the right of dual access to certain areas on the southeastern portion of the reservoir where these areas abut on land still subject to Indian ownership.

In July, 1948, a board of appraisers was appointed to consider and recommend the price to be paid for the Indian lands and rights which were to be acquired by the Government for use in connection with the construction, operation and maintenance of the Boysen Dam and Reservoir. The board of appraisal consisted of Russell S. Lieurance, construction engineer for the Boysen unit, representing the Government. On his death he was succeeded by Robert F. Herdman, construction engineer of the Yellowtail dam. Barry Dibble, a consulting engineer of Redlands, Calif., represented the Indian tribes. Joel D. Justin, consulting engineer of Philadelphia, Pa., was the third member of the board nominated by the other two members. This board of appraisers recommended \$458,000 as a fair price for the Indian lands and rights to be acquired for the Boysen Dam and Reservoir.

(1) A copy of the report of Messrs. Robert F. Herdman, Barry Dibble and Joel D. Justin dated December 15, 1949, on the proper amount payable by the United States to the Shoshone and Arapaho

Tribes for the Indian lands needed for the Boysen Dam and Reservoir;

(2) A copy of a joint statement prepared by Messrs. Robert F. Herdman and Barry Dibble entitled "Engineering Data and Basic Facts—Missouri River Basin Project, Boysen Unit, Wyoming;"

(3) A copy of the Office of Indian Affairs "Report and Recommendations on the Application of the Bureau of Reclamation for Tribal and Allotted Lands for Boysen Dam, Reservoir, and Camp Site Rights-of-Way" dated August 18, 1947, in two volumes, are on file with your committee.

It is understood and agreed between the Indians and the Government that the payments of \$1,026.40, which the United States has heretofore paid to the Indians for a transmission line right-of-way over the Wind River reservation, and the sum of \$2,042.75 which the United States has agreed to pay under its pending applications for rights-of-way over the Wind River Reservation for the relocation of the railroad facilities of the Chicago, Burlington & Quincy Railroad Co. and the right-of-way facilities of United States Route 20, shall be considered part of the total sum of \$458,000, so that the total payment or payments remaining due shall be \$454,030.85.

Particular emphasis is directed to the following portion of the said "memorandum of understanding":

Surface rights shall be taken to mean all rights in the described lands except the rights to the oil, gas, and minerals beneath the surface.

4. The Office of Indian Affairs and the Bureau of Reclamation agree to the promulgation by the Secretary of the Interior of the following rules respecting the lands above described:

(a) No permit, license, lease, or other document covering the exploration for or the extraction of oil or gas or the prospecting for or mining of minerals of any kind shall be granted until there shall have been executed stipulations and agreements which the Secretary deems adequate to protect the interests of the United States in the construction, operation, maintenance and use of the Boysen Dam and Reservoir.

(b) Native members of the Shoshone Indian Tribe and of the Arapahoe Indian Tribe shall have the right to occupy the tracts described in this subparagraph 4 (b) when such lands are not inundated by Boysen reservoir waters and subject to rights-of-way which the United States has heretofore or may hereafter grant in connection with any relocation of railroads, highways, transmission lines, telephone or telegraph lines, pipe lines or other utilities made necessary by reason of the construction, operation, maintenance or use of the Boysen Dam and Reservoir. This right shall be enjoyed so long as the lands abutting thereto remain subject to the occupancy rights of said tribes and each thereof, and it shall be regarded, and it is hereby made, an easement appurtenant to such abutting lands and it shall be extinguished forthwith upon the termination by any means of the Indian occupancy. During such period of Indian occupancy the general public shall be excluded from such lands but employees, agents, and contractors of the United States may enter on such lands for purposes related to the construction, operation, maintenance and use of the Boysen Dam and Reservoir.

The Secretary of the Interior recommends the enactment of this bill. A copy of the report of the Secretary of the Interior, dated June 27, 1952, a copy of the Shoshone and Arapaho General Council's resolution, dated July 12, 1950, a copy of a letter dated June 27, 1952, from Dillon S. Myer, Commissioner of Indian Affairs, and a copy of a statement under date of December 15, 1949, signed by Robert F. Herdman, Barry Dibble, and Joel D. Justin are attached hereto and made a part of this report, as follows:

RESOLUTION CONCERNING THE BOYSEN DAM AND RESERVOIR PROJECT, ADOPTED BY THE GENERAL COUNCIL OF THE SHOSHONE AND ARAPAHOE TRIBES AT A DULY CALLED MEETING ON JULY 12, 1950

Whereas Assistant Secretary of the Interior W. E. Warne, on May 12, 1950, authorized the Regional Director of the Bureau of Reclamation at Billings, Mont., to advise the General Councils of the Shoshone and Arapahoe Indian Tribes of the Wind River Indian Reservation that the Department will approve and endorse for congressional authorization the payment of not to exceed \$458,000 to the tribes as full and total compensation for the Government's taking of Indian tribal and allotted lands and interests in lands needed for the construction, operation and maintenance of the Boysen Dam and Reservoir, including the sites for relocated highways, railroads, transmission, telephone and pipe lines, and further authorized him to negotiate with the area director of the Indian Service at Billings, Mont., and with the representatives of the Indian tribes, for the securing of a settlement memorandum which, subject to the approval of the Secretary of the Interior, might be made the basis of a request to Congress for authorizing legislation, such memorandum to provide generally for the conveyance of Indian surface rights, except for the Boysen Dam site area, where a conveyance of all Indian rights will be provided, and except for the lands immediately abutting the Wind River Reservation where any conveyance shall assure that the Indians retain a right of occupancy, subject to reservoir operations and subject to such rules and regulations as may be issued by the Secretary of the Interior in connection with the construction, operation, and maintenance of the Boysen Unit of the Missouri River Basin project: Now, therefore, be it

Resolved by the Shoshone Indian Tribe and by the Arapahoe Indian Tribe of the Wind River Indian Reservation, Wyoming, both in general council assembled, That approval be and is hereby given for the Government's acquisition of tribal and individual Indian rights in the taking area of the Boysen Unit of the Missouri River Basin project, in substantial accordance with the following terms:

(1) There shall be conveyed and relinquished to the Government (a) all tribal and individual Indian title to Boysen Dam site lands shown in green color on the attached map which is hereby made a part of this resolution as exhibit A; (b) all tribal and individual Indian title, except for gas, oil, and mineral rights, to Boysen Reservoir lands shown in yellow and red colors on the map attached as exhibit A, it being understood that the exercise of retained oil, gas and mineral rights shall be in accordance with rules and regulations which the Secretary of the Interior may make in connection with the operation, maintenance, and construction of the Boysen unit; and (c) rights-of-way for the relocation of the Mountain States telephone and power lines in the general area shown on the map attached as exhibit A, it being understood that such rights-of-way shall not exceed a total length of 10 miles or a width of 50 feet. To facilitate this conveyance and relinquishment, the Shoshone and Arapahoe Indian Tribes shall acquire and extinguish the rights of individual Indians in the properties to be conveyed and relinquished.

(2) The United States shall (a) pay \$458,000 for the rights which will be conveyed and relinquished; and (b) shall grant rights for exclusive Indian occupancy in the area shown with red lines over yellow color on the map attached as exhibit A, when such lands are not covered by water and so long as adjacent reservation lands remain in Indian occupancy and subject to rules and regulations which the Secretary of the Interior may make in connection with the construction, operation, and maintenance of the Boysen unit; and (c) shall grant rights for Indian access to and grazing upon the area shown with brown lines over red and yellow colors on the map attached as exhibit A, when such lands are not covered by water and so long as adjacent Indian lands remain in Indian occupancy, and with the understanding that members of the general public may be granted the same type of rights by the Secretary of the Interior.

And the Commissioner of Indian Affairs is authorized to negotiate and execute a memorandum of understanding with the Bureau of Reclamation to implement the above terms; and be it further

Resolved by the Shoshone Indian Tribe and by the Arapahoe Indian Tribe of the Wind River Indian Reservation, Wyoming, both in general council assembled, That approval be and is hereby given for the Government's initiation and completion of clearing operations on tribal and individual Indian lands in the taking area of the Boysen unit and for the cancellation of any leases, licenses or permits which may have been made or issued in connection with such lands, be it further

Resolved, That the chairmen of the Shoshone and Arapahoe Business Councils, respectively, be authorized to sign this resolution on behalf of the joint Shoshone-Arapahoe General Council.

DEPARTMENT OF THE INTERIOR,
BUREAU OF INDIAN AFFAIRS,
Washington, D. C., June 27, 1952.

HON. JOSEPH C. O'MAHONEY,
United States Senate.

MY DEAR SENATOR O'MAHONEY: During the recent discussion of the Committee on Interior and Insular Affairs of S. 3333, a bill to vest title in the United States to certain lands and interests in lands of the Shoshone and Arapaho Indian Tribes of the Wind River Reservation and to provide compensation therefor and for other purposes, Senator Corden raised a question as to whether lands within the Boysen Dam and Reservoir area, formerly belonging to individual Indians of these tribes, to be conveyed to the United States for dam and reservoir purposes, had been acquired by these tribes and, if so, how such conveyances were made to them.

These lands, before they were acquired by the United States from the individual Indians for the tribes, were appraised by representatives of the Bureau of Indian Affairs, and options were obtained from such individual Indians, which options set forth the descriptions of the lands and the prices which the individual Indian owners agreed to accept. Title to the allotments was conveyed by deeds which in only one or two instances reserved the mineral rights to the Indian grantors. The deeds were approved by the area director of the Billings Area Office of the Bureau of Indian Affairs. The authority for approval of such deeds by this official was delegated to him by the Commissioner of Indian Affairs in his Order No. 538 of September 17, 1946. This authority had previously been delegated to the Commissioner of Indian Affairs by the Secretary of the Interior, with power to redelegate such authority.

Sincerely yours,

D. S. MYER, *Commissioner.*

ARBITRATION CONCERNING BOYSEN UNIT, WYO., MISSOURI RIVER BASIN PROJECT, INVOLVING LANDS AND RIGHTS PRESENTLY OWNED BY THE SHOSHONE AND ARAPAHO INDIANS AND NEEDED BY THE UNITED STATES BUREAU OF RECLAMATION

In accordance with agreement for arbitration, Mr. Robert F. Herdman, representing United States Bureau of Reclamation; Mr. Barry Dibble, representing the Shoshone-Arapaho Joint Tribal Council; and Mr. Joel D. Justin, consulting engineer, constituting a board, have now agreed as to the sum of money which they believe the United States Bureau of Reclamation, acting for the United States Government, should pay to the Shoshone and Arapaho Tribes for all Indian lands within the Boysen Dam and Reservoir sites, including the power site value thereof.

The board has determined the sum of \$458,000 as the proper payment for all of the lands (surface rights only) and all other rights needed by the United States Bureau of Reclamation in connection with the Boysen Dam and Reservoir sites; and

Recommends that this sum be paid therefor to the Shoshone and Arapaho Tribes by the United States Bureau of Reclamation, acting for the United States of America.

Accompanying this agreement there is a report entitled "Engineering Data and Basic Facts, Boysen Unit, Wyo.," dated October 1949, which has been available to this board.

Respectfully submitted.

ROBERT F. HERDMAN.
BARRY DIBBLE.
JOEL D. JUSTIN.

SEATTLE, WASH., December 15, 1949.

DEPARTMENT OF THE INTERIOR,
OFFICE OF THE SECRETARY,
Washington, D. C., June 27, 1952.

HON. JOSEPH C. O'MAHONEY,
*Chairman, Committee on Interior and Insular Affairs,
United States Senate, Washington, D. C.*

MY DEAR SENATOR O'MAHONEY: You have requested an expression of the views of this Department on S. 3333, a bill to vest title in the United States to certain lands and interests in lands of the Shoshone and Arapaho Indian Tribes

of the Wind River Reservation and to provide compensation therefor, and for other purposes.

I recommend that the bill be enacted.

The Boysen unit of the Missouri River Basin project covers approximately 25,880 acres of land which are subject to certain rights of the Shoshone and Arapaho Indian Tribes of the Wind River Reservation in Wyoming. These rights consist of (1) occupancy rights to certain tribal lands, as those rights were defined in *Shoshone Tribe v. United States* (299 U. S. 476, 496 (1937)) and in *United States v. Shoshone Tribe* (304 U. S. 111, 117 (1938)); (2) beneficial rights in lands ceded by the treaty of April 10, 1904 (33 Stat. 1016), as such rights were defined in *Ash Sheep Co. v. United States* (252 U. S. 159, 166 (1920)); and (3) rights in acquired lands.

Acquisition of these Indian rights by the United States has been the subject of negotiations between representatives of the United States and of the Shoshone and Arapaho Indian Tribes which have extended over a period of 5 years. Delay in consummation of these negotiations was occasioned by the Indian conviction that special values should be assigned to the site on which the present Boysen Dam is now being erected. The Government's representatives did not wholly share this view. To resolve the issue, it was agreed among the parties in July of 1948 that a board of appraisers should be appointed to consider and recommend the price to be paid for the Indian rights which were to be acquired. Such board was appointed. Mr. Russell S. Lieurance, the construction engineer for the Boysen unit, represented the Government. On his death he was succeeded by Mr. Robert F. Herdman, construction engineer of the Yellowtail unit. Mr. Barry Dibble, a consulting engineer at Redlands, Calif., represented the Indian tribes. Mr. Joel D. Justin of Philadelphia, also a consulting engineer, was the third member of the board nominated by the other two members. This board of appraisers recommended \$458,000 as a fair price for the Indian rights to be acquired for the Boysen unit.

On July 12, 1950, the General Council of the Shoshone and Arapaho Indian Tribes approved the relinquishment of their rights in the Boysen unit taking area for the recommended consideration of \$458,000 and authorized the Commissioner of Indian Affairs to negotiate and execute a memorandum of understanding with the Commissioner of Reclamation which would confirm their approval and incorporate certain terms for the acquisition which had been theretofore approved by me. These terms provide that full and complete title shall be given the Government in the lands on which the Boysen dam is to be located and that surface rights are to be conveyed in the remainder of the unit taking area. In this latter area the Indians will retain exclusive access to a portion of the shoreline of the Boysen reservoir so long as the abutting lands of the Wind River Reservation remain subject to the occupancy rights of the Indians. They, with the general public, are also to be allowed the right of dual access to certain areas on the southeastern portion of the reservoir where these areas abut on lands still subject to Indian ownership. The tribes agreed to acquire the rights to all individual Indian ownerships in the Boysen taking area. This agreement has been performed. The general council's resolution of July 12, 1950, reads as follows:

"Whereas Assistant Secretary of the Interior W. E. Warne, on May 12, 1950, authorized the regional director of the Bureau of Reclamation at Billings, Mont., to advise the General Councils of the Shoshone and Arapahoe Indian Tribes of the Wind River Indian Reservation that the Department will approve and endorse for congressional authorization the payment of not to exceed \$458,000 to the tribes as full and total compensation for the Government's taking of Indian tribal and allotted lands and interests in lands needed for the construction, operation and maintenance of the Boysen Dam and Reservoir, including the sites for relocated highways, railroads, transmission, telephone and pipelines, and further authorized him to negotiate with the area director of the Indian Service at Billings, Mont., and with the representatives of the Indian tribes, for the securing of a settlement memorandum which, subject to the approval of the Secretary of the Interior, might be made the basis of a request to Congress for authorizing legislation, such memorandum to provide generally for the conveyance of Indian surface rights, except for the Boysen Dam site area, where a conveyance of all Indian rights will be provided, and except for the lands immediately abutting the Wind River Reservation where any conveyance shall assure that the Indians retain a right of occupancy, subject to reservoir operations and subject to such rules and regulations as may be issued by the Secretary of the Interior in connection with the construction, operation, and maintenance of the Boysen unit of the Missouri River Basin project; Now, therefore, be it

"Resolved by the Shoshone Indian Tribe and by the Arapahoe Indian Tribe of the Wind River Indian Reservation, Wyoming, both in general council assembled, That approval be and is hereby given for the Government's acquisition of tribal and individual Indian rights in the taking area of the Boysen unit of the Missouri River Basin project, in substantial accordance with the following terms:

"(1) There shall be conveyed and relinquished to the Government (a) all tribal and individual Indian title to Boysen Dam site lands shown in green color on the attached map which is hereby made a part of this resolution as exhibit A; (b) all tribal and individual Indian title, except for gas, oil, and mineral rights, to Boysen Reservoir lands shown in yellow and red colors on the map attached as exhibit A, it being understood that the exercise of retained oil, gas, and mineral rights shall be in accordance with rules and regulations which the Secretary of the Interior may make in connection with the operation, maintenance, and construction of the Boysen unit; and (c) rights-of-way for the relocation of the Mountain States telephone and power lines in the general area shown on the map attached as exhibit A, it being understood that such rights-of-way shall not exceed a total length of 10 miles or a width of 50 feet. To facilitate this conveyance and relinquishment, the Shoshone and Arapahoe Indian Tribes shall acquire and extinguish the rights of individual Indians in the properties to be conveyed and relinquished.

"(2) The United States shall (a) pay \$458,000 for the rights which will be conveyed and relinquished; and (b) shall grant rights for exclusive Indian occupancy in the area shown with red lines over yellow color on the map attached as exhibit A, when such lands are not covered by water and so long as adjacent reservation lands remain in Indian occupancy and subject to rules and regulations which the Secretary of the Interior may make in connection with the construction, operation, and maintenance of the Boysen unit; and (c) shall grant rights for Indian access to and grazing upon the area shown with brown lines over red and yellow colors on the map attached as exhibit A, when such lands are not covered by water and so long as adjacent Indian lands remain in Indian occupancy, and with the understanding that members of the general public may be granted the same type of rights by the Secretary of the Interior.

"And the Commissioner of Indian Affairs is authorized to negotiate and execute a memorandum of understanding with the Bureau of Reclamation to implement above terms; and be it further

"Resolved by the Shoshone Indian Tribe and by the Arapaho Indian Tribe of the Wind River Indian Reservation, Wyo., both in general council assembled, That approval be and is hereby given for the Government's initiation and completion of clearing operations on tribal and individual Indian lands in the taking area of the Boysen unit and for the cancellation of any leases, licenses or permits which may have been made or issued in connection with such lands; be it further

"Resolved, That the chairmen of the Shoshone and Arapaho Business Councils, respectively, be authorized to sign this resolution on behalf of the joint Shoshone-Arapaho General Council."

Section 1 of the bill authorizes the conveyance for the consideration of \$458,000 and confirms the granting of rights-of-way within the taking area. Section 2 provides that the conveyance and relinquishment dealt with in section 1 shall be in accord with the memorandum of understanding between the Commissioner of Indian Affairs and the Commissioner of Reclamation which was approved by the Secretary on December 29, 1951, and amended and approved by him on May 1, 1952. Copies of the memoranda approved by the Secretary on December 29, 1951, and May 1, 1952, are attached. To these memoranda is appended a copy of the map described in the resolution of the Shoshone and Arapaho Tribes set out above. Section 3 of the bill provides for the payment of the agreed compensation in accordance with the act of May 19, 1947 (61 Stat. 102), as amended by the act of August 30, 1951 (65 Stat. 208), which provides for the segregation and expenditure of trust funds held in joint ownership by the Shoshone and Arapaho Tribes of the Wind River Reservation.

I am informed by the Bureau of the Budget that there would be no objection to enactment of this legislation.

Sincerely yours,

R. D. SEARLES,
Under Secretary of the Interior.

Memorandum.

To: Secretary of the Interior.

Through: Commissioner of Indian Affairs.

From: Commissioner, Bureau of Reclamation.

Subject: Acquisition of Indian Lands and Interests in Lands for Boysen Unit, Missouri River Basin Project.

Terms of the subject acquisition were approved by you May 12, 1950, by endorsement of my memorandum of April 20, 1950. This memorandum authorized the regional director at Billings, Mont., to advise the general council of the Shoshone and Arapahoe Indian Tribes that the Department would approve and endorse for congressional authorization the payment of not to exceed \$458,000 to the tribes as full and total compensation for the Government's taking of Indian tribal and allotted lands and interests in lands needed for the construction, operation, and maintenance of the Boysen Dam and Reservoir, including the sites for relocated highways, railroads, transmission, telephone and pipe lines. The terms of the subject acquisition as approved by you were presented July 12, 1950, at a meeting of the general council of the Shoshone and Arapahoe Indian Tribes. The terms were accepted by the general council as evidenced by the attached copy of its resolution of July 12, 1950.

In accordance with the resolution of the general council and pursuant to the authority provided by your approval of my memorandum of April 20, 1950, a settlement memorandum of understanding between this Bureau and the Bureau of Indian Affairs was then prepared. Draft of this settlement memorandum of understanding is enclosed. It incorporates the terms for the subject acquisition as approved by you and the general council. It is recommended that the form and terms of this settlement memorandum be approved and that its execution be authorized by the Commissioner of the Bureau of Indian Affairs and myself. I am advised that the Commissioner of Indian Affairs joins in this recommendation.

Also enclosed, for your information, is a preliminary draft of a proposed bill, together with a letter to the Speaker of the House of Representatives, to provide congressional approval of the subject acquisition. Section 1 would authorize you to make the necessary conveyances and relinquishments. Such conveyances and relinquishments will need be only of the tribal interest, since the Shoshone and Arapahoe Indian Tribes have recently acquired the interests of all individual Indian owners and allottees. Section 2 makes reference to the memorandum of understanding which sets out the terms of the acquisition. Section 3 has been included at the request of the Bureau of Indian Affairs so that disposition of the stipulated compensation may be definitely prescribed.

The attached memorandum of understanding will be executed by the Commissioner of Indian Affairs and myself upon your endorsement below and the final drafts of the necessary legislation and report will be undertaken.

Memorandum.

To: Secretary of the Interior.

Through: Commissioner of Indian Affairs.

From: Acting Commissioner, Bureau of Reclamation.

Subject: Acquisition of Indian Lands for Boysen Reservoir, Missouri River Basin Project.

On December 29, 1951, the Acting Secretary approved the execution of a memorandum of understanding between the Bureau of Reclamation and the Bureau of Indian Affairs, setting forth the terms under which the Indian lands needed for the Boysen Reservoir were to be acquired. Attached to the agreement was a draft of bill authorizing the acquisition of the lands in accordance with the provisions of the said memorandum of understanding, together with a draft of transmittal letter to the Speaker of the House of Representatives. The memorandum

of understanding between the Bureau of Indian Affairs and the Bureau of Reclamation was subsequently executed on January 4, 1952.

In further consideration of the matter, the Solicitor's office has called attention to the fact that article 4 (b) of the memorandum of understanding, executed on January 4, 1952, is not in harmony with the resolution of July 12, 1950, adopted by the general council representing the Shoshone and Arapaho Indian Tribes, setting out the terms for the disposal of the Indian lands in question. It was pointed out that the memorandum of understanding provides that the Indians shall enjoy the right of occupancy to a certain area of the lands to be relinquished so long as the major portion of the lands abutting thereto shall remain subject to occupancy rights of the Indians, whereas the resolution provided that such right of occupancy shall remain as long as adjacent reservation lands remain in Indian occupancy.

This feature has been given further consideration by the appropriate field representatives of the two bureaus and they have advised that the memorandum of understanding in this respect is not in accordance with the intent and purview of the agreement between the representatives of this Department and the Indian tribes, and they have recommended that the attached memorandum of understanding, executed January 4, 1952, be amended by striking the words "the major portion of" in line 9 of article 4 (b), page 60.

In the circumstances, it is recommended that you approve the enclosed executed amendatory agreement.

Enclosure approved May 1, 1952, and returned.

UNITED STATES DEPARTMENT OF THE INTERIOR

MODIFICATION OF MEMORANDUM OF UNDERSTANDING BETWEEN THE BUREAU OF RECLAMATION AND THE BUREAU OF INDIAN AFFAIRS COVERING COMPENSATION FOR INDIAN LANDS TAKEN FOR THE BOYSEN UNIT OF THE MISSOURI RIVER BASIN PROJECT

Whereas the execution of a memorandum of understanding between the Bureau of Indian Affairs and the Bureau of Reclamation, relating to the relinquishment, compensation and administration of Indian lands needed in connection with the construction, operation and maintenance of the Boysen Reservoir, Boysen unit, Missouri River Basin project, was approved by the Acting Secretary of the Interior on December 29, 1951; and such a memorandum was subsequently executed on January 4, 1952;

Whereas it has been determined that article 4 (b) of the said agreement is not in accordance with the intent and purview of the resolution adopted on July 12, 1950, by the general council of the Shoshone and Arapaho Indian Tribes, specifying the terms under which the Indians were agreeable to relinquish their rights in certain described lands and authorized the Commissioner of the Bureau of Indian Affairs to negotiate and execute a memorandum of understanding with the Commissioner of the Bureau of Reclamation, in that the agreement provides that the Indians shall enjoy the right of occupancy to a certain area of the acquired lands so long as the major portion of the lands abutting thereto shall remain subject to occupancy rights of the Indians; whereas the resolution provided that such right and occupancy shall remain as long as adjacent reservation lands remain in Indian occupancy;

Now, therefore, the Bureau of Indian Affairs and the Bureau of Reclamation, with the approval of the Secretary of the Interior, do hereby mutually agree that article 4 (b) of the memorandum of understanding executed on January 4, 1952, is amended by striking out the words "the major portion of" in line 9 thereof.

THE UNITED STATES OF AMERICA.
By G. W. LINEWEAVER,
Acting Commissioner, Bureau of Reclamation.
By D. S. MYER,
Commissioner, Bureau of Indian Affairs.

Secretary of the Interior.

MEMORANDUM OF UNDERSTANDING BETWEEN THE BUREAU OF RECLAMATION
AND THE OFFICE OF INDIAN AFFAIRS COVERING COMPENSATION FOR INDIAN
LANDS TAKEN FOR THE BOYSEN UNIT OF THE MISSOURI RIVER BASIN PROJECT

1. This Memorandum of Understanding is made this 4th day of January 1952, between the Bureau of Reclamation and the Office of Indian Affairs pursuant to the Acts of June 17, 1902 (32 Stat. 388) and December 22, 1944 (58 Stat. 887), both as amended and supplemented. This memorandum of understanding has been negotiated and prepared in accordance with the memorandum of April 20, 1950, from the Commissioner of the Bureau of Reclamation to the Secretary of the Interior on the subject, "Acquisition of Indian lands and interest in lands for Boysen Unit, Missouri River Basin Project," which memorandum was approved by Assistant Secretary W. E. Warne on May 12, 1950.

2. (a) The Bureau of Reclamation agrees that it will approve and recommend that Congress authorize payments to the Shoshone Indian Tribe and to the Arapaho Indian Tribe in the total sum of \$458,000.00. These payments are to be made from funds which Congress appropriates to the Bureau of Reclamation for the Missouri River Basin Project. They will be compensation for the Indian property and rights conveyed or to be conveyed and the affirmative action taken or to be taken by or on behalf of the Shoshone Indian Tribe and the Arapaho Indian Tribe as provided in this memorandum.

(b) It is understood that the payment of \$1,026.40, which the United States has heretofore paid to the Shoshone Indian Tribe and to the Arapaho Indian Tribe on or about May 21, 1948, as compensation for a transmission line right-of-way over the Wind River reservation lands, shall be considered part of the total sum of \$458,000.00 so that the total payment or payments remaining due shall be \$456,973.60. It is also understood that the total sum to be paid the Shoshone Indian Tribe and the Arapaho Indian Tribe includes the payment of \$2,042.75, which the United States agreed to pay under its pending applications of January 16, 1948, for rights-of-way over the Wind River reservation lands for the relocation of the railroad facilities of the Chicago, Burlington and Quincy Railroad Company and of the highway facilities of U. S. Route 20. Such total sum shall also be considered to include compensation for rights-of-way over lands not below described in paragraph 3: *Provided*, That such rights-of-way shall be limited to such rights-of-way as may be needed by the United States in the event that it assumes the obligation of relocating the existing lines of the Mountain States Telephone and Telegraph Company and of the Mountain States Power Company in the area of the Boysen Unit: *Provided further*, That any such rights-of-way shall not exceed 50 feet in width and a total of 10 miles in length.

3. The Office of Indian Affairs agrees that it will recommend that Congress authorize the Secretary of the Interior to convey and relinquish to the United States the following:

(a) All the right, title, and interest which each individual Indian or the tribal organization of the Shoshone Indian Tribe, and both, may now own or claim or hereafter acquire in the Boysen dam site area described as follows.

Surface rights shall be taken to mean all rights in the described lands except the rights to the oil, gas, and minerals beneath the surface.

4. The Office of Indian Affairs and the Bureau of Reclamation agree to the promulgation by the Secretary of the Interior of the following rules respecting the lands above described:

(a) No permit, license, lease, or other document covering the exploration for or the extraction of oil or gas or the prospecting for or mining of minerals of any kind shall be granted until there shall have been executed stipulations and agreements which the Secretary deems adequate to protect the interests of the United States in the construction, operation, maintenance and use of the Boysen Dam and Reservoir.

(b) Native members of the Shoshone Indian Tribe and of the Arapahoe Indian Tribe shall have the right to occupy the tracts described in this subparagraph 4 (b) when such lands are not inundated by Boysen Reservoir waters and subject to rights-of-way which the United States has heretofore or may hereafter grant in connection with any relocation of railroads, highways, transmission lines, telephone or telegraph lines, pipelines or other utilities made necessary by reason of the construction, operation, maintenance or use of the Boysen Dam and Reservoir. This right shall be enjoyed so long as the major portion of the lands abutting thereto remain subject to the occupancy rights of said tribes and each thereof, and it shall be regarded, and it is hereby made, an easement appurtenant to such abutting lands and it shall be extinguished forthwith upon the termination by any means of the Indian occupancy. During such period of Indian occupancy the general public shall be excluded from such lands but employees, agents, and contractors of the United States may enter on such lands for purposes related to the construction, operation, maintenance and use of the Boysen Dam and Reservoir. The lands covered by this subparagraph 4 (b) are described as follows:

5. (a) The Office of Indian Affairs agrees to request and approve the joint acquisition by the Shoshone and by the Arapaho Indian Tribes of any lands or interests in land within the legal subdivisions described above in paragraph 3 or within any rights-of-way required for either or both of the relocations referred to above in paragraph 2 (b), which may be held by or for individual Indians and Indian allottees. Such acquisition shall be at the expense of the Shoshone Indian Tribe and the Arapaho Indian Tribe and shall be accomplished to the satisfaction of the Commissioner of the Bureau of Reclamation within 60 days from the date of this memorandum. In the event that the Shoshone Tribe Indian and the Arapaho Indian Tribe shall fail to make or complete such acquisition within the 60 days prescribed, or within such further time as the Secretary of the Interior may allow, the United States may acquire such rights by condemnation and deduct the cost of and payments made in such condemnation proceedings from the compensation payable under paragraph 2 above.

(b) The Office of Indian Affairs agrees also to request and approve the immediate termination by cancellation of any leases, permits, or licenses held on any lands within the legal subdivisions described above in paragraph 3 or within the rights-of-way referred to above in paragraph 2 (b).

MICHAEL W. STRAUS,
Commissioner, Bureau of Reclamation.
D. S. MYER,
Commissioner, Office of Indian Affairs.
